

CAREER OBJECTIVE

Enthusiastic fresher passionate about software development, programming, and both front-end and back-end. Skilled in Java, Python, HTML, CSS, JavaScript, SQL, and software testing. Strong analytical abilities and eager to apply skills in real-world projects and enhance technical expertise.

WORK EXPERIENCE

Artificial Intelligence (AI) • Internship

Dec 2023

Pantech Solutions, Coimbatore

AI Internship Completion Engaged in the development of machine learning models and honed Python skills for AI projects. [Dec 2023]

EDUCATION

B.Sc. Computer Science (artificial Intelligence And Data Science), Computer Science

2022 - 2025

Shree Venkateshwara Arts And Science Co-Education College

Percentage: 87.33%

TRAININGS / CERTIFICATIONS

DBMS MYSQL, Git, GitHub And Figma Bootcamp Certificates

Mar 2024 - Apr 2024

LetsUpgrade, Virtual

Proficient in DBMS and MySQL through LetsUpgrade courses. Skilled in Git and GitHub for version control and Figma for design prototyping. [Mar 2024]

Front-End Web Developer Bootcamp Certificate

Feb 2024 - Mar 2024

udemy, Virtual

Proficient in HTML, CSS, JavaScript, and React.Applied knowledge in developing interactive web applications and user interfaces. [Feb 2024]

AI Internship Completion

Dec 2023

Pantech Solutions, Virtual

Engaged in the development of machine learning models and honed Python skills for AI projects. [Dec 2023]

Java Programming Certificate

Oct 2023 - Nov 2023

Nativeva, Virtual

Gained proficiency in Java fundamentals and Object-Oriented Programming. [Oct 2023]

Python Programming Certificate

Jul 2023 - Aug 2023

GUVI, Virtual

Developed proficiency in implementing algorithms and solving coding challenges, preparing for practical use in software development. [July 2023]

PROJECTS

Front-End Project: Netflix Landing Page Clone

Jun 2024 - Jul 2024

Developed a responsive Netflix landing page clone HTML,CSS and JavaScript. Implemented dynamic carousel and interactive elements like sign-in modal and drop-down menus. Mimicked original design with dynamic content and animations. Ensured cross-browser comparability and optimized for various screen sizes.

Python Project: Face Recognition, Detection and Tracking

Apr 2024 - May 2024

Developed a system using Python and OpenCV for face recognition, detection and tracking. Implemented machine learning algorithms for accurate real-time detection. Achieved high accuracy and optimized performance through continuous testing. Conducted extensive testing to ensure accuracy and reliability.

SKILLS

- HTML
 - Python
- CSS
 - Java
- JavaScript
 - React

- MySQL
- MS-Excel
- MongoDB

- Git
- MS-Office

- GitHub
- Power BI

EXTRA CURRICULAR ACTIVITIES

- Intercollegiate Quiz - Won the first place showing strong knowledge & quick thinking. Debugging Event - Secured the first place demonstrating excellent problem solving.

ADDITIONAL DETAILS

- Intercollegiate Quiz - Won the first place showing strong knowledge & quick thinking. Debugging Event - Secured the first place demonstrating excellent problem solving.
